

BAUCHI STATE ELECTION MONITORING AND RESULT MANAGEMENT PORTAL

SYSTEM BUDGET

Table 1: Personnel Cost

S/N	Description	Quantity	Unit Cost (₦)	Total (₦)	Justification
1	System Analysis and Requirements Gathering	1	150,000	150,000	Requirement elicitation, stakeholder consultation, workflow design.
2	Frontend Development (React.js)	1	360,000	360,000	Development of dashboards, GIS interface, authentication pages and reporting modules.
3	Backend Development (Node.js/Express)	1	600,000	600,000	API creation, authentication, database integration and business logic.
4	Database Design and Administration	1	630,000	630,000	PostgreSQL database modelling, optimization and maintenance.
5	System Testing and Quality Assurance	1	240,000	240,000	Functional, integration and security testing.
6	Technical Documentation and Report Writing	1	150,000	150,000	User manuals, technical documentation and project report preparation.
				Personnel Subtotal	
				₦2,130,000	

Table 2: Software and Development Tools

S/N	Description	Quantity	Unit Cost (₦)	Total (₦)	Justification
1	Visual Studio Code	1	185,000	185,000	Open-source development environment
2	PostgreSQL Database Server	2	897,000	1,794,000	Open-source relational database
3	Node.js Runtime Environment	1	323,000	323,000	Open-source backend framework support
4	React.js Framework	1	765,000	765,000	Open-source frontend development framework
5	GitHub Repository Services	1	456,000	456,000	Source code management and version control
6	Postman API Testing Tool	1	250,000	250,000	API testing and validation

Software Subtotal
₦3,773,000

Table 3: Hosting, Deployment and Cloud Services

S/N	Description	Quantity	Unit Cost (₦)	Total (₦)	Justification
1	Render Backend Hosting (Annual)	2	180,000	360,000	Production backend hosting
2	Vercel Frontend Hosting (Annual)	2	105,000	210,000	Frontend deployment and delivery
3	Domain Name Registration	2	140,000	280,000	Professional system access
4	SSL Certificate	2	135,000	270,000	Secure HTTPS communication
5	Cloud Database Backup Storage	2	225,000	450,000	Backup and disaster recovery
				Hosting Subtotal ₦1,570,000	

Table 4: Internet, Communication and Training

S/N	Description	Quantity	Unit Cost (₦)	Total (₦)	Justification
1	Internet Subscription	24 Months	20,000	480,000	Development, deployment and testing activities
2	Technical Training and Research Materials	1	50,000	50,000	Acquisition of advanced technical knowledge
4	Communication and Collaboration Expenses	1	20,000	20,000	Coordination and stakeholder interactions
				Training Subtotal ₦550,000	

Table 5: Hardware and Miscellaneous

S/N	Description	Quantity	Unit Cost (₦)	Total (₦)	Justification
1	Laptop Usage and Depreciation	1	550,000	550,000	Development workstation allocation
2	External Storage Device	1	120,000	120,000	Backup and recovery storage
3	Miscellaneous Expenses	1	90,000	90,000	Unforeseen project-related expenses
				Hardware Subtotal ₦760,000	

Project Cost Summary

Category	Amount (₦)
Personnel Cost	2,130,000
Software Cost	3,773,000
Hosting and Deployment	1,570,000
Internet, Communication and Training	550,000
Hardware and Miscellaneous	760,000
Grand Total	₦8,783,000
